**DETAILED ACTION**

**EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 5, line 1, "the" has been deleted and - - an - - has been inserted after "held on"

In claim 14, line 1, "the" has been deleted and - - a - - has been inserted before "mixture"

***Allowable Subject Matter***

2. Claims 1-20 are allowed over the Prior Art of record.
3. The following is an examiner's statement of reasons for allowance: The primary reasons for allowance of independent claim 1 is the inclusion of all the elements recited in an apparatus for measuring the microgranulometry of a sample in a micro tube having rolling holders, having both gamma and sonic sources and receivers and a vertical screw with a rotating nut for controlling the position of the micro tube relative to the sources and receivers. None of the Prior Art show this particular configuration of elements, alone or in combination with one another. As to independent claim 12, the inclusion of the specific method steps of measuring the microgranulometry of a sample of gravitationally separable particles in a micro tube with the

Art Unit: 2856

specific method steps recited. None of the Prior Art employ the measurement or determination of microgranulometry in a micro tube employing these specific method steps.

4. The closest Prior Art reference is US 5,095,451 to Allen, which discloses a centrifugal particle size analyzer, but fails to disclose a micro tube and or determining microgranulometry, but does disclose the employment of x-rays and/or gamma radiation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Applicant is invited to review PTO form 892 accompanying this Office Action listing Prior Art relevant to the instant invention cited by the Examiner.
